

OIA-2/78
26 July 1978

MEMORANDUM FOR: Director, OCR

SUBJECT : Classified "Things" Originated by OIA, Executive Order 12065

The following is a list of classified "things" that the Office of Imagery Analysis originates. For ease of handling they are divided into those of a substantive intelligence nature and those which deal with administrative responsibilities.

A third category is miscellaneous. These are typescript memoranda sent to NFAC management dealing with one of a kind situation and classified either Secret or Top Secret codeword depending on the topic and/or source material.

Substantive (Intelligence Reporting)

The classification of OIA intelligence products is pre-determined by the classification of the source material. In this case, all but a few products are Top Secret Codeword or Secret/No Foreign except--, or Secret/No Foreign. In the category we produce:

- Imagery Research Papers
- Imagery Analysis Notes
- Imagery Analysis Memoranda
- Interoffice Memoranda
- Briefing Boards and Vugraphs
- Sketches, Line drawings and Photographs

Memoranda that discuss collection strategies rather than photo intelligence are also classified and handled via T-KH channels.

Administrative
